

RALLYTEST

General Instructions

- 1) Please run in numerical order and make sure you are ready to go when instructed. This will make the event run smoother and let everyone get more competition.
- 2) If anyone drops out of order through mechanical problems please close the gap. Tests will not normally be held open after the last car running for delayed competitors. If you have a problem let an official know so that the best effort can be made to avoid you missing any tests.
- 3) To maximise competition test will be run at 30sec intervals.
- 4) Each competitor is issued with a question sheet. There are 12 questions or untimed tests. At each test start the competitor is to show the marshal the answer to the relevant untimed test filled in on the sheet. (e.g. at test 3 show the answer to untimed test 3). Do not fill in the answers ahead of your next test. This requirement will ensure that 50% of the tests today are untimed. Question sheets must not be filled in outside the car and completed sheets must be handed in at the finish. Failure to comply with the above instructions will result in the issue of test maximum penalties.
- 5) After each group of 4 tests hand in your time card to the test finish marshal.
- 6) Please ensure that the correct competition number for the driver is showing on each run. This will help the marshals avoid mistakes.
- 7) Any further queries please ask. We aim to start the runs at about 10.00 and there will be a drivers' briefing immediately beforehand.
- 10) Good luck and have fun!
